STF Phi-23 ("Dream Defense") was created to combat the high incarceration rate of SCP-4917-1 instances. Phi-23 is staffed with several accredited defense lawyers to represent -1 instances: most cases taken by Phi-23 are found not guilty or a given a reduced sentence. The Jury Coordinator deals with a high call and message volume; and makes every attempt to respond within two business days. Before you contact the Jury Coordinator, please read through the resources provided on this website. They can be found at the links below.
